Profile

Complete B.Tech in Computer Science, I am passionate about building scalable and efficient web applications. With a strong foundation in core Java, front-end technologies (HTML, CSS, JavaScript), and back-end development (Spring Boot, MySQL), I am eager to apply my skills in real-world projects. I am actively seeking a Java Full Stack Developer role where I can contribute to innovative solutions, collaborate with cross-functional teams, and continuously grow in a dynamic, fast-paced tech environment.

Education

Bachelor of Technology (B. Tech) in Computer Science

2021 - 2025

Karmayogi Institute of Technology, Shelve, Pandharpur, Shelve, Pandharpur

- Complete bachelor of Technology/Bachelor of Engineering (B. Tech/BE) degree in Computer Science from Karmayogi Institute of Technology, Shelve, Pandharpur, enrolled in 2021 and expected to graduate in 2025.

INTERSHIP

Data Analyst Intern EY

Nov 2023 - Dec 2023

- I contributed to data analysis projects as a Data Analyst Intern at EY (Internship, 2023). My responsibilities involved collecting, processing, and analyzing data sets to derive insights.
- I gained practical experience in data analysis within a professional setting.

Web Development Intern OASIS INFOBYTE

Jul 2023 - Aug 2023

- I contributed to web development projects as a Web Development Intern at OASIS INFOBYTE (Internship, 2023).
- My responsibilities included designing and developing responsive user interfaces, implementing backend functionalities, and integrating APIs to enhance application performance.
- I utilized technologies such as HTML, CSS, JavaScript, and Java (Spring Boot) to support project goals, working collaboratively with the development team.
- This internship provided me with hands-on experience in full-stack development within a professional environment.

Java full stack

Mar 2025 - Present

Qspider, Pune

Java full stack

- Developed and maintained full-stack applications using Java, Spring Boot, HTML, CSS, and JavaScript to deliver responsive and efficient solutions.
- Optimized existing Java backend code for better scalability and maintainability in full-stack projects.
